Education

Prof. Ram Meghe Institute of Technology and Research (Autonomous) **Aug. 2024 – Present**
Bachelor of Technology in Computer Science Engineering *Amravati, Maharashtra*
- CGPA: 8.1/10.0

Government Polytechnic, Amravati **Aug 2021 – June 2024**
Diploma In Information Technology) *Autonomous*
- Percentage: 88.84%

Bhagyshree Vidyalya, Amravati **June 2015 – March 2021**
Secondary School Certificate (10th Grade) *Maharashtra State Board*
- Percentage: 94.80%

Technical Skills

Languages: C, C++, Java, Python, HTML/CSS, JavaScript, SQL
Backend Development: Java Backend, RESTful APIs, Server-side Development, MVC Architecture, SQL & Databases, Authentication & Authorization
Developer Tools: VS Code, Eclipse, Git
Technologies/Frameworks: Linux, GitHub , Spring Boot

Projects

StoreMyFiles: Cloud Storage Web Application | Project Link | *React.js, Node.js, Express.js, PostgreSQL* **2026**
- Built a full-stack cloud storage platform inspired by Google Drive for uploading, storing, and managing files.
- Developed REST APIs using Node.js and Express.js with PostgreSQL for managing users and file-related data.
- Created a responsive React.js interface with user authentication and file management features for seamless access to stored files.

DocBlendAI: Educational QA Assistant | Project Link| *Python, RAG, OCR, HTR, LLM* **Jan 2026-June 2026**
- Built a QA system that can read typed, scanned, and handwritten academic documents & answer questions from them.
- Used OCR and HTR for scanned and handwritten notes, with RAG to find relevant content before generating answers.
- Added confidence-based labels to show whether an answer is reliable and tested the system using EM, Semantic Match, CER, and WER.

Validify: Certificate Verification Platform | Project Link | *Angular 19, .NET 9, Azure* **June- 2026**
- Built a scalable certificate verification platform using Angular 19 and .NET 9 Web API with Clean Architecture and secure REST APIs.
- Implemented Azure AD B2C authentication, role-based access control, JWT validation, custom claims, and Microsoft Graph API integration for user management.
- Integrated Azure Functions, Key Vault, Blob Storage, and SAS tokens for background processing, secure file storage, and protected resource access.
- Implemented application monitoring and diagnostics using Application Insights and Serilog, along with secure image and file upload workflows.

Certifications

Fundamentals of Deep Learning – NVIDIA
Python for Data Science – NPTEL

Leadership / Extracurricular

Hackathons **2026**
Participant
∗ Participated in 24-hour hackathons at SSGMCE, building real-world prototype solutions in team environments.
